Transform Your Healthcare Products with Aereus Bacteria* Fighting Solutions

Bactericidal properties actively kill microorganisms, including surface bacteria*

CuVerro Shield™ by Aereus Technologies is an antimicrobial solid layer that is applied during the manufacturing process to create surfaces with 24/7 bacteria protection*. Its one-time application bonds to almost any hard surface mechanically, without altering its design. This Aereus solution is cost-effective and easy to clean.

WHY AEREUS TECHNOLOGIES ANTIMICROBIAL SOLUTIONS?

Aereus Technologies' EPA-registered antimicrobial copper products are a highly versatile way to continuously fight bacteria*. Science suggests that antimicrobial copper surface contact kills bacteria* with a multi-faceted attack. Its thin, durable copper alloy layer can be applied to almost any solid surface.

CuVerro® Copper
continuously
kills bacteria
even after
recontamination

Antimicrobial copper
never wears out

Continuously kills
99.9% of bacteria*

A solid metal
solution

Visually appealing
finish

Does not use
harmful chemicals

THE VERSATILE CHOICE

Easily apply the power of copper across multiple industries and products, everywhere potential infectious-bacteria exposure is a concern.

HOW COPPER KILLS BACTERIA

A Copper ions on the surface are recognized as an essential nutrient, and enter the cell

B A lethal dose of copper ions interferes with normal cell functions and membrane integrity

C Copper ions impede cell respiration/metabolism, sometimes causing DNA damage

*Laboratory testing shows that, when cleaned regularly, CuVerro® surfaces kill greater than 99.9% of the following bacteria within 2 hours of exposure: Methicillin-Resistant Staphylococcus aureus (MRSA), Staphylococcus aureus, Enterobacter aerogenes, Pseudomonas aeruginosa, E. coli O157:H7, and Vancomycin-Resistant Enterococcus faecalis (VRE). The use of CuVerro® bactericidal copper products is a supplement to and not a substitute for standard infection control practices; users must continue to follow all current infection control practices, including those practices related to cleaning and disinfection of environmental surfaces. This surface has been shown to reduce microbial contamination, but it does not necessarily prevent cross contamination. CuVerro® is a registered trademark of Wieland North America, Inc. and is used with permission. AE-0004-1809 For more information, visit www.cuverro.com
